Introduction

This document lists the individual tasks assigned to the student during the third sprint of development on Acme L3, including information relative to each one, as well as the estimated budget for the activities specified.

This document has the following structure:

- Tasks
- Budget

Contents

Tasks

Due to the individual nature of this report, the team member designated to each task will be omitted. During the Sprint 4, Alejandro Merino will have to complete the following tasks:

- **Requirement 19:** Produce a test suite for Requirements #14 and #15.
 - **Role:** tester
 - **Estimated time:** 1 hour 30 mins
 - **Actual Time:** 2 hours 30 mins
- **Requirement 20:** Produce assorted testing data for your test suite.
 - **Role:** tester
 - **Estimated time:** 30 mins
 - **Actual Time:** 30 mins
- **Requirement 16:** Operations by auditors on auditor dashboards.
 - **Role:** developer
 - **Estimated time:** 1 hour
 - **Actual Time:** 1 hour 30 mins

Budget

The budget will be calculated by multiplying the income per hour of each role assumed by the worker and multiplied by the estimated time that will be spent working under said role. For this sprint the budget is as follows:

-	<u>Manager:</u>	30.00€/h	*	0h,	00 min →	00.00 €
-	<u>Analyst:</u>	30.00€/h	*	0h,	00 min →	00.00 €
-	<u>Developer:</u>	20.00€/h	*	1h,	30 min →	30.00 €
-	<u>Tester:</u>	20.00€/h	*	3h,	00 min →	60.00 €
-	<u>Operator:</u>	20.00€/h	*	0h,	00 min →	00.00 €
<u>Total:</u>						90.00 €

Conclusion

This deliverable was relatively easy to do since it relied on the work done in the other sprints and the framework allows easier testing, so the workload is fine. Also, I had to finish a requirement from the last sprint.

Bibliography

Intentionally blank.
