## **Summary**

Acme Life-Long Learning, Inc. (Acme L3, Inc. for short) is a company that specializes in helping learners get started on a variety of matters with the help of renowned lecturers. The goal of this project is to develop a WIS to help this organization manage their business.

## **Revision table**

Number	Date	Description
1	21/04/2023	Full redaction of the document.

## **Introduction**

This document lists analysis records, each one including the following data: a verbatim copy of the requirement to which the record refers; detailed conclusions from the analysis and decisions made to mend the requirement; a link to the validation performed by a lecturer.

This document has the following structure:

- Analysis report

# **Contents**

## **Analysis records**

Requirement n°11 as Anonymous principal:

Decisions: intentionally blank

Conclusions: intentionally blank

Requirement n°12 as:

Decisions: intentionally blank

Conclusions: intentionally blank

Requirement n°13 as:

Decisions: intentionally blank

Conclusions: intentionally blank

Requirement n°14 :

Decisions: Include foreign key from assistant on tutorial class.

Conclusions: it was implemented in order to allow each assistant to manage their own tutorials.

Requirement n°15 as:

Decisions: intentionally blank

Conclusions: intentionally blank

Requirement n°16 as

Decisions: intentionally blank

Conclusions: intentionally blank

## **Conclusion**

This deliverable had many requirements that required analysis. Through discussions with our teacher and other classmates we have achieved a more or less satisfying solution to many of the problems encountered. However many of these solutions may not be final, as it may happen that in the next deliverable of testing makes us realize mistakes that we were not aware of. Also said requirements have a disproportionate amount of work compared to the previous deliverables.
